

HAPPY EASTER! JESUS CHRIST IS ALIVE FOR EVER AND EVER

It is a big challenge to bring transformation among the rural communities of Madagascar. There are few deep questions in my mind: ***Are we going to give up and close the Center? Do we feel alone and discouraged? Are we able to continue the ministry? (School, clinic and entrepreneurship and much more?) If nothing change how long will we be able to stand for?***

What is the reality?

My family are the only staff at the Base. Setra & Mirana stayed back, Sitraka went to Potchefstroom, South Africa, Joe Chedley went to Taiwan and Celestine is going to South Africa next June.

We won't give up!!!!!!!

We're moving forward

Discipleship:

All the community are evangelized, but not disciple. So we set up every Wednesday afternoon a discipleship session for the community. There are few participants but we do believe that these few key people will bring impact among their families and friends in few years coming. Transformation is always brought by very few people.

School: Working and Learning

Apart of running normal school, as all of you know, we are pioneering a new education system. We selected 4 girls who have left school because lacking of finances. 50% of their time is used to plant strawberries and the rest is learning Malagasy, French, English and basic Math. They have also time to learn some business skills. This is a real sustainable education project.

Dry fruits

April & May is the guava season. It is the cheapest one and rich in ascorbic acid (vitamin C), B-complex vitamins and essential oils. Unfortunately, the Malagasy people, especially the rural people dislike this wonderful fruit. They haven't seen the importance of having wild guava. They don't care about it, even cut its trees and destroy them for making charcoal.

When we dry them we add value and people are happy to sell them.

Sewing seminar

Each Saturday for 3 months Clara with my cousin organize a sewing seminar for the community. Clara is very excited with the 15 participants. She can't wait to sew some clothes for me and her children.

Please PRAY for,

- long term and full time staff
- Strength and encouragement
- Regular support.

We really appreciate your friendship, efforts and love to support us in different aspects. Thank you very much.

Faly, Clara, Mamy, Liana, Mitia.
